

InterServAuth

```
graph BT; AuthService --|> InterServAuth
```

A UML class diagram showing an inheritance relationship. The class 'AuthService' is represented by a dark gray rectangle at the bottom. The class 'InterServAuth' is represented by a white rectangle with a gray border at the top. A blue arrow points from the top of 'AuthService' to the bottom of 'InterServAuth', indicating that 'AuthService' inherits from 'InterServAuth'.

AuthService
